

I was informed today that you may be introducing a new broadcast service known as LPFM. I am afraid that if you follow through with this plan I may lose some stations that are very important to me and my community. Most of all, K-LOVE! I feel that it would be in my community's best interest to keep this station available to us. I want my children to grow up and have this station available to them as well. It keeps us encouraged and on the "right track". I am afraid of how our daily lives would be affected if it were taken away. K-LOVE provides America with quality programming and it makes our quality of life much better. Thank you for your time.
